FITOO Academy Course Catalogue and Website Requirements

Developer handoff | Proposed onsite courses in Lahore | 29 September 2026

Prepared for the FITOO website developer on behalf of Dn. Umer Shabbir, Co founder and CEO of FITOO. This document supplies the proposed public course copy, fee data, registration flow, and implementation rules for a six course FITOO Academy section on fitoo.pro. Publish prices, schedules, venues, policies, and claims only after FITOO approves their final values.

Scope Six onsite courses, five packages, course detail pages, enrolment enquiry, admin content fields, and launch checks.

Status This is an implementation brief. Fees and course structures are the proposals developed in the prior planning discussion; they are not a statement that FITOO has already launched the courses.

1 Course catalogue and prices

ID	Course	Duration and hours	Launch fee PKR
C01	Dietitian Sales and Consultation Mastery	4 weeks • 18 hours	14,999
C02	Dietitian Practice Launch Program	8 weeks • 32 hours	29,999
C03	Applied Sports Nutrition	4 weeks • 16 hours	19,999
C04	Applied Diabetes Nutrition Management	6 weeks • 24 hours	24,999
C05	Zero to Online Fitness Consultation Business	12 weeks • 60 hours	69,999
C06	Practical Gym Training for Nutritionists	12 weeks • 72 hours	59,999

All prices are proposed founding batch fees in Pakistani rupees for onsite delivery. Do not show struck through regular prices until FITOO approves a real subsequent price and the promotion period. Currency and numeric amounts should be stored as data, not embedded only in images.

2 Website structure and shared copy

Navigation Add FITOO Academy to the main navigation. Academy landing page sections: introduction, category filters, six course cards, packages, onsite learning format, common questions, and enquiry call to action. Each course has a dedicated detail URL.

Landing introduction Learn practical nutrition, consultation, fitness coaching, and business skills through FITOO Academy onsite courses in Lahore. Explore the curriculum, practical work, and available enrolment options for each program.

Location FITOO Office, Moon Market, Allama Iqbal Town, Lahore. The gym course also requires an approved partner or FITOO gym venue. Show the exact classroom and gym addresses only when confirmed for each batch.

Categories Business and Practice: C01, C02, C05. Clinical and Sports Nutrition: C03, C04. Fitness Training and Coaching: C06. A course may have secondary tags, but one primary category per card is sufficient.

Card fields Title, short summary, category, delivery badge Onsite in Lahore, duration, total teaching hours, proposed fee, batch status, image, View Course and Enquire actions. Do not generate fictitious dates or seats available.

Detail page order Hero with title and fee; overview; who it is for; learning outcomes; weekly curriculum; practical deliverables and materials; duration and format; assessment and certificate; venue and batch information; fee and instalments; common questions; enrolment enquiry.

Visual direction Use FITOO brand assets supplied by FITOO. The existing premium black and gold identity is suitable; use real permissioned class and gym photographs when available. Avoid stock imagery that implies an existing cohort, partner gym, or accreditation.

3 Complete course page content

C01 Dietitian Sales and Consultation Mastery

Learn to turn suitable enquiries into structured, ethical consultations.

Page field	Website content
URL slug	/academy/courses/dietitian-sales-consultation-mastery
Fee and format	PKR 14,999 • 4 weeks • 18 teaching hours • Onsite Lahore
Schedule	12 onsite classes, 1.5 hours each
Batch guidance	Recommended 12 to 15 learners; maximum 20, subject to classroom capacity.

Overview

A practical course for nutrition students and dietitians who want to improve client communication, run discovery consultations, explain suitable services, and follow up professionally. Sales practice is grounded in honest claims and a client centred recommendation.

Who it is for Nutrition students, recent graduates, and practising dietitians.

Learning outcomes

- Respond to an enquiry and qualify the client without pressure.
- Use a structured consultation and document goals, barriers, and readiness.
- Present packages, handle common objections, and ask for a decision ethically.
- Create a follow up process with clear consent and privacy boundaries.

Weekly curriculum

Week	Topic	Practical work
1	Sales fundamentals, client psychology, first contact and enquiry triage	Draft an initial response and qualification script.
2	Discovery questions, consultation structure and personalised recommendations	Conduct a recorded or observed mock consultation.
3	Package presentation, pricing, ethical closing and WhatsApp communication	Produce an offer card and follow up sequence.
4	Objections, follow ups, retention and final mock consultation	Complete a scored sales simulation and reflection.

Included materials and experience Sales scripts, discovery question bank, consultation notes sheet, needs to benefits worksheet, offer card, role plays and instructor feedback.

Assessment Observed mock consultation plus completion of key worksheets. FITOO should approve the pass rubric and attendance threshold before publication.

Scope and important details This course teaches professional communication and consultation skills; it does not confer clinical registration or guarantee sales.

Page action Enquire about this course. Preselect C01 in the enquiry form. Show registration or payment only when batch and checkout arrangements are approved.

C02 Dietitian Practice Launch Program

Design the systems needed to start an independent nutrition practice.

Page field	Website content
URL slug	/academy/courses/dietitian-practice-launch-program
Fee and format	PKR 29,999 • 8 weeks • 32 teaching hours • Onsite Lahore
Schedule	16 onsite classes, 2 hours each
Batch guidance	Recommended 12 to 15 learners; maximum 20, subject to classroom capacity.

Overview

An implementation focused program for graduates who want to define their niche, develop services and pricing, build a professional presence, manage enquiries, and organise client delivery. Students leave with a practice plan and working templates.

Who it is for Graduating nutrition students, new dietitians, and professionals preparing for independent practice.

Learning outcomes

- Define a niche and a credible service offer.
- Set prices using a simple financial model and describe package scope.
- Build a lead, consultation, onboarding, and retention workflow.
- Prepare a 90 day implementation plan.

Weekly curriculum

Week	Topic	Practical work
1	Niche and ideal client	Draft a positioning statement.
2	Service design and boundaries	Define packages and deliverables.
3	Pricing and business finances	Complete cost and revenue worksheet.
4	Personal brand and social media	Build a professional profile plan.
5	Lead generation and partnerships	Create an outreach plan.
6	Sales funnel and consultations	Test an enquiry to booking process.
7	Onboarding and retention	Assemble forms and check in workflow.
8	Launch roadmap	Present a practice portfolio and 90 day plan.

Included materials and experience Editable planning worksheets, service and pricing templates, intake and onboarding documents, implementation assignments, and instructor feedback.

Assessment Final practice portfolio and presentation. FITOO should approve the scoring rubric before publishing a passing standard.

Scope and important details This course helps students plan and organise a practice; actual commercial launch and any paid tools are separate. C05 provides a longer supervised build and launch process.

Page action Enquire about this course. Preselect C02 in the enquiry form. Show registration or payment only when batch and checkout arrangements are approved.

C03 Applied Sports Nutrition

Apply nutrition principles to training, performance and recovery.

Page field	Website content
URL slug	/academy/courses/applied-sports-nutrition
Fee and format	PKR 19,999 • 4 weeks • 16 teaching hours • Onsite Lahore
Schedule	8 onsite classes, 2 hours each
Batch guidance	Recommended 12 to 15 learners; maximum 20, subject to classroom capacity.

Overview

A practical introduction to sports nutrition for nutrition and fitness professionals. Students assess a training scenario, estimate energy and nutrient needs, plan food and hydration, and evaluate supplement claims using current evidence.

Who it is for Dietitians, nutrition students, certified fitness trainers, and sports professionals working within their scope.

Learning outcomes

- Collect a useful athlete training and nutrition history.
- Estimate energy needs and plan macronutrients and hydration.
- Adapt food timing to training demands and recovery.
- Assess common sports supplements and communicate uncertainty.

Weekly curriculum

Week	Topic	Practical work
1	Foundations of sports nutrition and athlete assessment	Complete a sport and training demand profile.
2	Energy requirements, macronutrients, timing and hydration	Work through energy, protein and hydration calculations.
3	Body composition, recovery and evidence based supplementation	Critique a supplement marketing claim.
4	Individualised nutrition planning and athlete cases	Present a case based nutrition plan.

Included materials and experience Calculation worksheets, case studies, four proposed practical assignments and final case presentation.

Assessment Case plan and short presentation assessed with an approved rubric.

Scope and important details The course is continuing education delivered by FITOO. It does not replace a university qualification or specialist clinical supervision.

Page action Enquire about this course. Preselect C03 in the enquiry form. Show registration or payment only when batch and checkout arrangements are approved.

C04 Applied Diabetes Nutrition Management

Practise nutrition assessment, carbohydrate counting and case planning.

Page field	Website content
URL slug	/academy/courses/applied-diabetes-nutrition-management
Fee and format	PKR 24,999 • 6 weeks • 24 teaching hours • Onsite Lahore
Schedule	12 onsite classes, 2 hours each
Batch guidance	Recommended 12 to 15 learners; maximum 20, subject to classroom capacity.

Overview

A case based education program on nutrition care for people living with type 1 and type 2 diabetes. It covers glucose data interpretation in context, meal planning, carbohydrate counting, weight management, exercise considerations, and appropriate escalation to the treating clinical team.

Who it is for Nutrition students, dietitians, and relevant healthcare professionals; professional scope applies.

Learning outcomes

- Explain type 1 and type 2 diabetes and relevant nutrition goals.
- Gather dietary, medication, activity and glucose context for assessment.
- Practise carbohydrate counting and individualised meal planning.
- Recognise situations that require medical review or referral.

Weekly curriculum

Week	Topic	Practical work
1	Diabetes physiology and classification	Explain the nutrition implications of a fictional case.
2	Nutrition assessment, HbA1c and glucose monitoring	Document a structured assessment.
3	Medical nutrition therapy and carbohydrate counting	Complete carb counting exercises.
4	Type 1 and type 2 meal planning	Develop a case based meal plan.
5	Weight management, activity, supplements and clinical considerations	Discuss scope and referral decisions.
6	Case studies, referrals and assessment	Present a care plan for a fictional client.

Included materials and experience Assessment sheets, carbohydrate counting practice, fictional cases and instructor feedback.

Assessment Case based nutrition plan and practical evaluation with approved scoring rubric.

Scope and important details Education within the learner's professional scope. It does not authorise diagnosis, medication or insulin adjustment, or independent treatment decisions.

Page action Enquire about this course. Preselect C04 in the enquiry form. Show registration or payment only when batch and checkout arrangements are approved.

C05 Zero to Online Fitness Consultation Business

Build and test the operating parts of an online consultation business.

Page field	Website content
URL slug	/academy/courses/zero-to-online-fitness-consultation-business
Fee and format	PKR 69,999 • 12 weeks • 60 teaching hours • Onsite Lahore
Schedule	24 onsite classes, 2.5 hours each; individual reviews proposed
Batch guidance	Recommended 8 to 12 learners.

Overview

A supervised business build program for qualified or aspiring nutrition and fitness professionals. Participants create a brand, offers, social profiles, landing and booking process, consultation scripts, onboarding materials, and a client delivery workflow. They test a lead to client journey and leave with a 90 day growth plan.

Who it is for Dietitians, nutritionists, qualified fitness trainers, and aspiring fitness business owners. Clinical and exercise services must match each participant's qualifications.

Learning outcomes

- Launch a clear professional identity and defined offers.
- Set up an enquiry, booking, payment and onboarding path.
- Create an initial content plan and supervised advertising setup.
- Demonstrate a working consultation and client management process.

Weekly curriculum

Week	Topic	Practical work
1	Business foundations and niche	Personal roadmap.
2	Brand and positioning	Brand identity and profile.
3	Service packages	Three proposed offers.
4	Pricing and finance	Price and revenue worksheet.
5	Instagram, Facebook and WhatsApp Business	Professional profiles.
6	Content and video marketing	Calendar and sample posts.
7	Client acquisition and Meta ads	Supervised campaign setup.
8	Consultation and sales	Mock consultation and scripts.
9	Landing, booking and payments	Functional enquiry and booking path.
10	Onboarding and delivery	Client workflow and tracking.
11	Launch implementation	Test campaign and enrolment process.
12	Review and optimisation	Portfolio and 90 day growth plan.

Included materials and experience Editable templates, three proposed individual business reviews, classroom simulations, portfolio feedback and a training demonstration of FITOO web panel capabilities where available.

Assessment Demonstrate the lead to client workflow from marketing to progress review, using fictional clients or consented real participants.

Scope and important details Advertising spend, domains, hosting, paid software, payment processing and commercial panel access are excluded unless FITOO expressly includes them. No promise of paying clients or income. This is more hands on than C02; avoid implying the two courses are identical.

Page action Enquire about this course. Preselect C05 in the enquiry form. Show registration or payment only when batch and checkout arrangements are approved.

C06 Practical Gym Training for Nutritionists

Learn exercise technique, program design and supervised gym coaching.

Page field	Website content
URL slug	/academy/courses/practical-gym-training-for-nutritionists
Fee and format	PKR 59,999 • 12 weeks • 72 contact hours • Onsite Lahore
Schedule	36 onsite classes, 2 hours each; at least 40 gym floor hours within the 72
Batch guidance	Recommended 8 to 10 learners, subject to gym access and supervision.

Overview

A practical gym education program for nutritionists and dietitians who want to develop foundational exercise coaching skills. Students practise exercise demonstrations, client screening, coaching cues, adaptations, and resistance programming under supervision.

Who it is for Nutritionists and dietitians seeking additional fitness coaching skills. Trainers from other backgrounds may be considered if FITOO approves entry criteria.

Learning outcomes

- Screen and assess a general fitness client and recognise referral needs.
- Demonstrate and coach key push, pull, lower body, core and mobility exercises.
- Build a beginner or intermediate resistance program.
- Lead a supervised training session with safe technique and communication.

Weekly curriculum

Week	Topic	Practical work
1	Anatomy and movement	Identify muscles and movement patterns.
2	Physiology and biomechanics	Analyse joint actions and mechanics.
3	Screening and fitness assessment	Practise baseline assessment.
4	Chest, shoulders and triceps	Demonstrate push exercises.
5	Back and biceps	Demonstrate pull exercises.
6	Legs and glutes	Coach squat, hinge and leg exercises.
7	Core, mobility and flexibility	Teach suitable progressions.
8	Resistance programming	Write beginner and intermediate plans.
9	Strength, hypertrophy and fat loss	Select training variables.
10	Different populations	Modify and refer appropriately.
11	Supervised personal training	Coach practice clients.
12	Final gym assessment	Complete observed evaluation.

Included materials and experience At least 40 gym floor hours within total contact time, including a minimum of 24 supervised practicum hours; exercise library, programming templates and observed coaching feedback. Gym venue must be secured before paid enrolment.

Assessment Proposed 75 percent overall pass with all essential safety competencies demonstrated. Exercise demonstration 25 percent; assessment 20 percent; programming 20 percent; supervised coaching 25 percent; professionalism 10 percent. Arrange recognised CPR and AED training separately through a qualified provider if offered.

Scope and important details FITOO Academy Certificate of Completion in Practical Gym Training and Fitness Trainer Development records FITOO assessed training. It is not automatically an internationally accredited personal trainer qualification. Clinical and rehabilitation cases require appropriate referral.

Page action Enquire about this course. Preselect C06 in the enquiry form. Show registration or payment only when batch and checkout arrangements are approved.

4 Packages and instalment options

Packages must be selectable products with their own IDs, prices, and included course IDs. A package enquiry does not reserve a seat in every component automatically; FITOO should allocate batches after confirmation. Display savings against the sum of the proposed individual launch fees only when all component offers are active at the same time.

Package ID and name	Includes	Proposed fee	Saving vs single fees
B01 Business Foundation	C01 + C02	39,999	4,999
B02 Clinical and Sports	C03 + C04	39,999	4,999
B03 Four Core Courses	C01 + C02 + C03 + C04	69,999	19,997
B04 Fitness Professional	C05 + C06	119,999	9,999
B05 Complete Academy	All six courses	169,999	49,995

C05 includes some practice building and sales material also taught in C01 and C02. Describe B05 as access to all six courses with some overlapping material, and show the schedule before checkout. The previous conversation proposed B03 as the original four course bundle and B05 as the all six course bundle.

Individual course instalments

Course	At registration	Later payments	Total
C01	7,500	7,499 before midpoint	14,999
C02	12,000	9,000 at week 4; 8,999 at week 7	29,999
C03	10,000	9,999 before midpoint	19,999
C04	12,500	12,499 before midpoint	24,999
C05	20,000	25,000 at week 5; 24,999 at week 9	69,999
C06	20,000	20,000 at week 5; 19,999 at week 9	59,999

Instalments are proposed, with no additional financing charge. C01, C03 and C04 due points need calendar dates set by FITOO before display. Do not assume the individual instalment schedules apply to bundles. Payment terms, tax treatment, refunds, transfers, late payments and cancellation rules must be approved and linked before accepting money.

5 Enrolment and content management requirements

Enquiry form

Field	Rule
Full name	Required
WhatsApp number	Required; Pakistan or international format; validate country code
Email	Optional, recommended for receipt and course notices
Qualification	Required selection plus Other free text
Course or package	Required; prefilled from clicked page; store ID and price snapshot

Field	Rule
Preferred batch	Only show published available batches; otherwise use Notify me
Payment preference	Full or instalments, if offered
Consent	Required acknowledgment of contact and privacy notice; optional marketing consent separate
Notes	Optional; no sensitive clinical information requested

After submission, create an enquiry record with timestamp, selected course or package ID, displayed fee, source page and consent state. Show confirmation and route the lead to FITOO admissions through the site's existing approved workflow. Prevent duplicate accidental submissions, notify the team, and provide an accessible success or error state. Do not expose enquiry data in public pages.

Minimum admin fields

- Course: ID, slug, title, summary, category, image and alt text, overview, audience, learning outcomes, curriculum rows, inclusions, assessment, disclaimers, delivery venue, hours, sessions, batch cap, status, display order and SEO metadata.
- Price: currency PKR, launch fee, optional future regular fee, promotion start and end, instalment schedule, included and excluded costs, published state and effective date.
- Batch: course ID, venue, start and end dates, meeting dates and times, instructor, capacity, seats remaining, registration deadline, enquiry or enrolment status.
- Package: ID, included course IDs, fee, savings calculation, access rules, instalment eligibility and active state.
- Enquiry: lead information, chosen item, price snapshot, consent, status and follow up owner; restrict access to authorised staff.

Suggested states Draft, Coming Soon, Enquiries Open, Enrolment Open, Full and Closed. Enquiries Open is appropriate when dates are not yet confirmed. A course card should not imply a scheduled cohort merely because its course page exists.

URL pattern /academy, /academy/courses/[slug], /academy/packages, /academy/enquire. Keep URLs stable and redirect old slugs if renamed.

Search and accessibility One clear H1 per page; descriptive title and meta description; course schema only where accurate; readable mobile layout, keyboard accessible form, alt text and visible validation messages. Use site analytics events for course view and enquiry submit without storing unnecessary personal information.

6 Shared policies and frequently asked questions

Certificate statement FITOO Academy issues a private Certificate of Completion to learners who meet the approved attendance and assessment requirements. It is not a university degree, professional licence or third party accreditation. Final wording and certificate criteria require FITOO approval.

Who can enrol Course specific audience and prerequisites should be shown. FITOO should review qualifications for any course involving client care or gym supervision.

Do I need to attend in person Yes. These proposed courses are onsite in Lahore. No online delivery is included in these prices.

Where are classes held At the confirmed FITOO classroom venue in Lahore. Gym practicals take place at the confirmed gym venue specified for the batch.

Will I get clients or a job No outcome is guaranteed. The programs teach and assess defined skills; business results depend on implementation and market conditions.

Are external costs included C05 third party expenses are excluded unless specified. C06 gym access is included in course contact hours only if FITOO secures and confirms the venue. Any optional CPR or AED course is separate unless explicitly included.

How do instalments work Display the approved payment dates and terms for the selected batch before payment. Bundle instalments are not yet defined.

What is the refund policy Await FITOO approval of an academy specific policy. Do not copy FITOO consultation refund language automatically onto education products.

7 Decisions FITOO must confirm before publishing enrolment

1. Approve final prices, any discount period, bundle availability, instalment terms, tax treatment, and refund or transfer policy.
2. Confirm each first batch start date, weekly timetable, instructor, classroom capacity, and the physical gym venue for C06.
3. Confirm entry requirements, attendance thresholds, assessment rubrics, certificate wording and issue process for all six courses.
4. Confirm whether C05 individual business reviews, demo panel access and landing page assistance are included exactly as described; define the scope of developer and marketing support.
5. Confirm whether C06 gym access costs, supervised practice arrangements and any external CPR or AED certification are included.
6. Supply brand logo, approved imagery, legal business details, contact channel, payment method and privacy and education terms.

Until these decisions are made, the site can publish course information with an Enquire or Join Waitlist action. Switching to paid checkout is a separate launch gate.
